WHISTLE

RACING BIKE 2021

Prestazioni e leggerezza per spingersi oltre il limite.
Whistle propone per la stagione 2021 una linea di mtb, road e trekking bikes per le competizioni o per uscite in relax.
Whistle opera da sempre prestando la massima attenzione alla qualità e alla sicurezza dei suoi prodotti. Tutte le biciclette rispondono agli standard qualitativi dell'Unione Europea ed i nostri partner di produzione conducono rigorosi controlli come espressamente richiesto dalle norme ISO ed EN.

Performance and reduced weight to push beyond the limit.
Whistle proposes for the 2021 season a range of mtb, road e trekking bikes for competitions and for relaxed rides.
Whistle has always operated with the utmost attention to quality and safety of its products.
Every Whistle bicycle complies with the qualitative standard by European Union.
In our laboratories many tests are performed as expressly requested by the ISO and EN standards.

FULL SUSPENDED

Pedalare fino alla cima e attaccare velocemente le discese più tecniche alla massima velocità. Sono costruite per le competizioni, ma grazie alle robuste sospensioni, sono agili e divertenti anche sui sentieri vicino a casa.

Ride to the top and quickly attack the most technical descents at maximum speed. Are built for competitions but thanks to the sturdy suspensions, they are agile and fun even on trails near home. Benefit from a finely balanced system that delivers maximum performance for a sporty riding style.

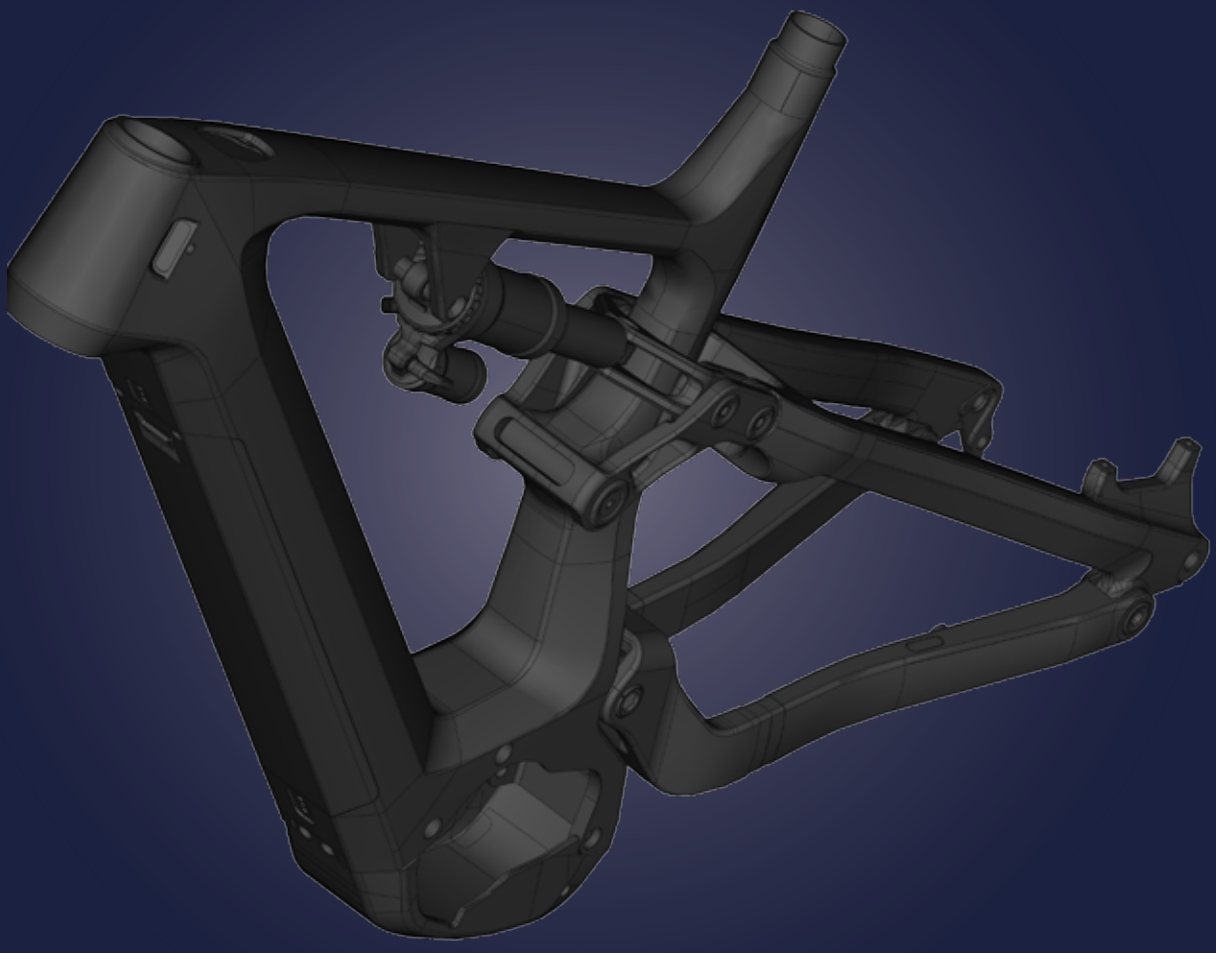

BOSCH

TECHNOLOGIES

B RUSH CARBON

Nuove frontiere, nuovi obiettivi da raggiungere, nuove opportunità.
Un telaio in carbonio pensato per mantenere la rigidità che contraddistingue questo materiale, ma realizzato per resistere a potenze di picco elevate, generate sia dal ciclista che dal motore.
Un telaio progettato per combinare le performance muscolari ed elettriche in un tutt'uno senza soluzione di continuità.

New frontiers, new goals to be achieved, new opportunities. A carbon frame designed to maintain the rigidity that distinguishes this material, but designed to withstand high peak power, generated both by the rider and the drive unit.
A frame designed to combine muscular and electrical performance in a seamless way.

LEGGERO E RIGIDO

Il telaio monoscocca è realizzato da uno stampo unico, quindi non ci sono giunzioni tra i tubi, come incollaggi o fasciature o saldature (alluminio), dove si concentrano gli sforzi della struttura.
Vantaggio per eccellenza: il peso. La lavorazione in uno stampo unico di grandi dimensioni permette di trattare la struttura come se fosse un tubo unico.
Il principale valore della fibra di carbonio è che può essere orientata in modo da fornire rigidezza o flessibilità nei punti critici del telaio a seconda delle esigenze progettuali. Questo consente di creare telai molto reattivi ma anche in grado di assorbire le vibrazioni e allo stesso tempo di risparmiare materiale laddove non serve riducendo in questo modo il peso.

LIGHTER AND STIFFER

The monocoque frame is made from a single mold, there are no joints between the pipes, such as gluing or bandages or welds (aluminum), where the efforts of the structure are concentrated. Advantage par excellence: weight. Processing in a single large mold allows the structure to be treated as if it were a single tube. The main value of carbon fiber is that it can be oriented so as to provide stiffness or flexibility in the critical points of the frame according to the design needs. This allows you to create frames that are very reactive but also capable of absorbing vibrations and at the same time saving material where it is not needed, thus reducing weight.

SPEED URBAN

Estetica, funzionalità e prestazioni. Doppia batteria ovvero libertà raddoppiata!
La Dual Battery Technology Bosch rende la Speed Urban imbattibile sul piano dell'autonomia e delle lunghe ascese, naturalmente con una sensazione di guida unica e costante. In questo modo non solo potrete percorrere distanze maggiori, ma non dovrete nemmeno preoccuparvi di avere l'autonomia necessaria durante i vostri spostamenti quotidiani.

Aesthetics, functionality and performance. Double battery or doubled freedom!
Bosch Dual Battery Technology makes the Speed Urban unbeatable in terms of range and uphill, naturally with a unique and constant driving sensation. In this way, not only will you be able to travel longer distances, but you will not even have to worry about having the necessary autonomy during your daily commute.

POWER

Una batteria da 500 Wh e una da 625 Wh, per un totale di 1125 Wh (aumenta la capacità della batteria aumentando così anche l'autonomia).

500 Wh + 625 Wh, for a total of 1125 Wh (increases battery capacity thus increasing autonomy).

POSITION

Batterie posizionate in modo intelligente così che il peso addizionale e la posizione della batteria non incidono minimamente sulla tenuta di strada. Due batterie Bosch PowerTube completamente integrate fissate nel telaio in carbonio.

Batteries positioned intelligently so that the additional weight and the position of the battery have no impact on road holding. Two fully integrated Bosch PowerTube batteries fixed in the carbon frame.

ADVANTAGE

Autonomia raddoppiata concetrazione totalmente sulla guida, senza dover sempre pensare all'autonomia restante. Inoltre la tecnologia permette di effettuare cariche molto meno frequenti aumentandone il ciclo di vita. È la soluzione perfetta non solo per il cicloturista ma anche per chi usa la bici ogni giorno.

Autonomy doubled concentration totally on driving, without always having to think about the remaining autonomy. In addition, the technology allows for much less frequent charges, increasing their life cycle. It is the perfect solution not only for the cyclist but also for those who use the bike every day.

ENERGIZER PLUS
ADDIX E COMPOUND

Massima durevolezza, bassa resistenza al rotolamento e un grip eccezionale. E questo anche ad alte velocità! L'inserto antiforatura GreenGuard protegge in modo affidabile dalle forature.

Maximum durability, low rolling resistance and exceptional grip. And this also at high speeds! The GreenGuard puncture proof interior reliably protects against punctures.

MINI 2

Illuminazione anteriore a LED, potente e azionabile direttamente dal manubrio.
Questo particolare molto utile dona alla e-Bike un valore aggiunto non indifferente.

Front LED lighting, powerful and directly operable from the handlebar. This very useful detail gives the e-Bike a significant added value.

YOUR PLUS

Una chiave per una funzione di antifurto e la rimozione della batteria.

One key to an anti-theft function and battery removal.

CARBON FULL SUSPENDED

Un Telaio in carbonio pensato per mantenere rigidità che contraddistingue questo materiale, ma realizzato per resistere a potenze di picco elevate. Il composito in fibra di carbonio infatti ha una rigidità maggiore con un peso ridotto rispetto a quasi qualsiasi altro materiale. La trama UD (Uni-Directional) ha fibre che corrono allo stesso modo anziché essere intrecciate insieme. In questo modo si crea una struttura forte e resistente, che permette la dissipazione delle vibrazioni causate degli urti all'interno del telaio; ciò comporta il completo assorbimento del movimento.

Tecnologie recenti ed innovative
abbinate a telai di ultimissima generazione per affrontare percorsi sempre più tecnici e sfidanti. Mtb versatili e piacevoli da guidare con geometrie sempre più aggressive in ottica racing.

A carbon frame designed to maintain rigidity that distinguishes this material, but made to withstand high peak powers. In fact, the carbon fiber composite has greater rigidity with a lower weight than almost any other material. The UD (Uni-Directional) weave has fibers that run the same way rather than being woven together. In this way, a strong and resistant structure is created, which allows the dissipation of vibrations caused by impacts inside the frame; this involves complete absorption of the movement.

Recent and innovative technologies combined with the latest generation of frames to face increasingly technical and challenging trails. MTB versatile and pleasant to drive with more aggressive geometries for racing

COMANCHE

Pensata per il massimo divertimento e sicurezza in discesa. Allestimento da enduro per una guida aggressiva e al tempo stesso "pulita"; grazie al telaio con sistema di sospensione VPP (Virtual Pivot Point).

Designed for maximum fun and safety downhill. Enduro set-up for aggressive and at the same time "clean" driving; thanks to the frame with VPP (Virtual Pivot Point) suspension system.

NAVAJO

Per geometria e sospensioni, permette di girare con sicurezza e grande divertimento tracciati anche in discesa, ovviamente con un approccio meno aggressivo rispetto all'enduro. Posizione di guida votata al massimo controllo del mezzo e comfort anche su sentieri sconnessi.

For geometry and suspension, it allows you to ride safely and with great fun, even downhill, obviously with a less aggressive approach than enduro. The driving position is devoted to maximum control of the vehicle and comfort eve on uneven paths.

MTB HARDTAIL

Rigidità, affIdabilità, resistenza e peso ridotto per una guida reattiva.

La Mojag con telaio leggero in carbonio e ruota da 29" potrà soddisfare ogni aspettativa. Ha mozzi Boost che consentono di aumentare la rigidità delle ruote e forcellino posteriore con attacco pinza freno che sfrutta lo standard Post Mount, movimento centrale con cuscinetti maggiorati sinonimo di rigidità e maggior durata. Miwok e Patwin con telai da 29" e da 27,5" sono realizzate con telaio in alluminio 6061, lega ottimale sinonimo di resistenza e leggerezza. Due famiglie entry level ideali per approcciarsi al mondo delle MTB con successo.

Stifness, reliability, resistance and reduced weight for a more reactive drive.

Carbon monocoque frame and 29" wheels for Mojag. The front and rear Boost allow to increase the wheels stifness; they have the rear dropout that uses the standard Post Mount, bottom bracket with oversized bearings which means stiffnes and longer lasting.
Miwok and Patwin's frame are in alluminium 6061, optimal league synonymous of lasting and lightness. They are entry level bicycles ideal for a biker who want to approach to the MTB world with great success.

MOJAG 2161

Front in carbonio, dalla linea pulita. Tipica MTB Cross Country Race che punta alla massima performance nella pedalata.

Carbon Front, with a clean line. Typical MTB Cross Country Race that aims for maximum pedaling performance.

ROAD

Bici leggere ed affdabili, rigide e confortevoli, veloci, stabili e durevoli.
In Whistle crediamo non solo nelle bici da corsa per la competizione; in Whistle crediamo che la bici da corsa ti accompagni nella quotidianità.

Lightness and reliability, stifness and comfort, speed and stability: these are the main features of the Whistle road bicycles.
In Whistle we believe that a road bike is not only for competition, in Whistle We believe that a road bicycle is for everydays.

MODOC GRX400

Il gruppo GRX progettato per coloro che amano la versatilità e non si fermano davanti agli ostacoli.
Le leve freno hanno un design ampio ed ergonomico. A livello estetico il GRX si ispira al family feeling che contraddistingue la moderna componentistica Shimano da strada.
Le pinze utilizzano tecnologia mutuata dagli impianti stradistici a disco di Shimano.

The GRX group designed for those who love versatily and don't stop in front of obstacles
The brake levers have a large and ergonomic design. On an aesthetic level, the GRX is inspired by the family feeling that distinguishes modern Shimano road components.
The calipers use technology borrowed from Shimano disc road systems.
